Canon BC-01 BC-02 BX-3 etc... Inks

Refilling... Some **MAGIC TIPS!**

5. Wear Gloves, Refill over a sink or inside a plastic bag! → See link below
6. If Cartridge has been empty for some time? Use **Magic Inkjet Flush** first!
7. Fill syringe with correct coloured ink, then hold upright and expel trapped air.
8. Place tissue under print head - to absorb excess ink while filling.
9. Gently insert syringe tip (1" inch)
10. Pull back slightly to create space inside sponge.
11. Then **S L O W L Y** refill with ink = Colour 3-5mls = Black 10mls (Approx)
12. No need to put tape over filling holes. Never put tape on a print head!
